

Superior Finance Solutions Pty Ltd.

Our Company was born in 2002.

We specialise in arranging finance for clients with a particular emphasis in the residential home market.

We utilise the equity in your home to further your aspirations to move forward for both lifestyle as well as wealth creation through investment.

In this era of electronic banking where it seems that human contact is avoided at all cost, pressing buttons frantically to get to the correct department, you really wouldn't be too surprised to learn that a finance broking business relies only on personal service.

We understand how very important it for you to give all of your personal information to someone who will who will respect your confidentiality.

Who will take out the stress, knowing what you are trying to achieve and knows which lender and what products will best work for you without you relentlessly shopping around and wasting all your precious time.

Only through our personal service formula will you be able to correctly match the financial loan to your requirements.

With over 20 Lenders to choose from, we try to source the best loan possible to suit each individual client's circumstances.

For a free finance appraisal please call Richard Fuller on (0408) 456 256.
